12. This amended resolution shall be considered as an amendment to Resolution 08-474, which, except as amended herein, remains in full force and effect.

Attachment A:

2022- Engineer’s Recommendations for Asphaltic Concrete Bid

Attached are the results of the bid comparison for the “Asphaltic Concrete” submitted and opened during the Morgan County Commissioner’s regular session on Monday March 28, 2022

I.) Asphaltic Concrete – Attachment - A

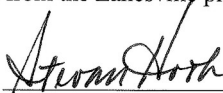

Two companies, (Mar-Zane, Inc. and Shelly Materials Inc.) submitted quotes for supplying Asphaltic Concrete to Morgan County and its Townships.

Shelly Materials, Inc. submitted a quote from one (1) source; **White Cottage Plant** at **\$72.00/ton, \$5.00/ton** more than last year.

Mar-Zane, Inc. submitted quotes for the following four plants: **Plant #6** located on SR #60 north of Duncan Falls at **\$ 66.00/ton** for **404** materials, **\$2.50** more than 2021. **Plant #2** located on SR 7 south of Marietta at **\$ 75.00/ton** for **404** materials, **\$8.50/ton** more than last year. **Plant #4** located on SR 33 south of Haydenville at **\$ 65.50/ton** for **404** materials, **\$2.50** more than last year. **Plant #13** located off SR #209 east of Byesville at **\$ 65.00/ton** for **404** materials, **\$3.00/ton** more than last year.

We are not planning on using any 405 materials due to the high unit costs. However, if we do; the cost is **\$125.00/ton at Plant #6 and \$135.00 at Plant #2**. This is \$10.00/ton more than last year.

Due to the high cost of fuel and transportation; **it is my recommendation that we accept all five (5) bids from Mar-Zane, Inc. and Shelly Materials, Inc.** with the understanding that the plant location utilized for a given project will be determined by the lowest total cost (asphalt + transportation) to that project. For example, it may be cheaper to pay \$6.00/ton more for material from the Marietta plant and not pay the high transportation costs from Philo or White Cottage when working in the Stockport area. Likewise the Deavertown area would be best served from the Zanesville plant.
